Dear Friends,

As concerns about the Coronavirus (COVID-19) intensify, we want to assure you that prioritizing the health and safety of our clients, volunteers and staff is of the utmost importance.

During this time of potential risk, we are working diligently to ensure that our staff can remain safe while working with our clients and their families. The majority of our staff will continue to see clients in the community and in clients’ homes while working on other tasks remotely. Additionally, we are accepting new clients for outpatient counseling appointments and have fully functional telehealth capabilities as well as other technologies enabling us to best support children and families.

In this ever-changing and uncertain time, our team is actively monitoring updates from the Center for Disease Control, World Health Organization, and Virginia Department of Health and are prepared should we need to take additional measures of caution.

Even with all our efforts and capabilities, meeting the needs of our families for an extended period during this uncertain time will be a challenge. At some point, our services could become limited. Our clients’ needs are likely to increase as this situation unfolds and we will continue to need your support. Please visit our website and follow our Facebook page for more information about what we’re doing, how you can help our community, and resources to stay informed during this unprecedented time.

We have compiled a list of resources on our website should you wish to educate yourself further. Thank you for all you do to support The Up Center.

Please note that Step Up for The Up Center has been rescheduled to September 12th. Please stay tuned for more information.

Tina Gill
President & CEO
